

INTERNALISING, CULTIVATING AND LIVING THE GOLDEN RULE

This month of June I ask you to be **INDUSTRIOUS**.

Custocation says in the concatenation ceremony:

Be Industrious. Little can accrue to an industry, or company, or to an individual, without hard work and a genuine desire to serve. Hoo-Hoo believes we should always be worthy of our hire. Be enthusiastic in carrying out your part in producing, selling and promoting the use of forest products.

One of the most satisfying feelings, is to come home tired after a hard day's work and feel really good about being so tired, because I know of the great effort I have put into that day's work in order to achieve excellent results.

In a personal leadership course I did, I came across a quote that made a **Hugh** impact on how I would value all the things that would do from that point onwards. The quote is:

"In all human affairs there are efforts and there are results and the strength of the effort is the measure of the result. Chance is not. Our gifts, powers, material, intellectual and spiritual possessions are the fruits of efforts. They are thoughts completed, objects accomplished, visions realised. The vision that you glorify in your mind, the ideal that you enthrone in your heart is what you will build your life by. This you will become."

It is of utmost importance that each of us continues to be **INDUSTRIOUS** in the affairs of our order, families, workplace, community and country. Make becoming **INDUSTRIOUS** a habit. Habits are like a cable, we weave a strand of it everyday, and soon they become so strong they are difficult to break. What kind of cable are you weaving?

Be of service during June because,

"Service is the rent we pay for the privilege of living on this earth"

Are you paying enough rent?

Health Happiness and Long Life.
